Ref No. DAE/HPAD/102<sup>nd</sup> ISC/2014

November 28, 2014

Dear Sir,

The 102<sup>nd</sup> Indian Science Congress will be organised at Mumbai during January 3-7, 2015 at the Kalina Campus of Mumbai University. The theme this year is "Science and Technology for Human Development". Like every year, a mega S & T exhibition "Pride of India" is being organised as part of the Science Congress. DAE has since 1999 been participating in this exhibition. As you are aware, DAE is presently celebrating its diamond jubilee. Chairman, AEC during the combined meeting of apex committee on Public outreach and Diamond Jubilee celebration on 22.11.14, stressed that DAE and its various units should put up an impressive show during this exhibition.

It is planned to collectively build a big DAE pavilion with participation of various units. It is therefore proposed that TIFR puts up a pavilion admeasuring 12 metre square at the rate of Rs. 13,500 per square metre (- 5% discount + 12.36%) highlighting the achievements of TIFR. It is also requested to put maximum number of models / products on display.

You are also requested to provide a presentation in power point about TIFR which will be continuously shown in the Central Audio Visual presentation booth of DAE.

Looking forward to your early and affirmative response.

Yours sincerely,

  
S.K. Malhotra 28/11/14
